

LA VIE EST BELLE

Date of issue:2020-02-20

Version: 1

Revision:

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product: LA VIE EST BELLE

Product No: 264680

Contains:

3,7-DIMETHYL OCTA-1,6-DIENE-3-YL ACETATE	CAS 115-95-7
7-ACETYLI -1,2,3,4,5,6,7,8- OCTAHYDRO- 1,1,6,7-TETRAMETHYLI NAPHTHALENE	CAS 54464-57-2
3,7-DIMETHYLOCTA-1,6-DIEN-3-OL	CAS 78-70-6
BENZYL 2-HYDROXYBENZOATE	CAS 118-58-1

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified use: Giving odor to products for cosmetics or household chemicals

1.3. Details of the supplier of the safety data sheet

Supplier:
Southern Scentsations Inc.

27419 Telegraph Road

Flat Rock, MI 48134
Phone: 734-782-2288

1.4.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation GHS

The mixture is classified as dangerous.

Skin Irrit. 2	H315	Causes skin irritation.
Eye Irrit. 2	H319	Causes serious eye irritation.
Repr. 2	H361	Suspected of damaging fertility or the unborn child.
Aquatic Chronic 2	H411	Toxic to aquatic life with long lasting effects.
Skin. Sens. 1B	H317	May cause an allergic skin reaction.

2.2. Label elements

Labeling according to Regulation GHS:

Pictograms:

SAFETY DATA SHEET

Revised: GSH/MSDS/REACH

LA VIE EST BELLE

Date of issue:2020-02-20

Version: 1

Revision:

Signal word: Danger

Hazard statements

- H315 Causes skin irritation.
H319 Causes serious eye irritation.
H361 Suspected of damaging fertility or the unborn child.
H411 Toxic to aquatic life with long lasting effects.
H317 May cause an allergic skin reaction.

Precautionary statements

Prevention

- P201 Obtain special instructions before use.
P261 Avoid breathing dust/fume/gas/mist/vapours/ spray.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response

- P302+P352 IF ON SKIN: Wash with plenty of of water and soap.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308+P313 IF exposed or concerned: Get medical advice/ attention.
P314 Get medical advice/attention if you feel unwell.
P337+P313 If eye irritation persists: Get medical advice/ attention.
P391 Collect spillage.

Storage

- P405 Store locked up.

Disposal

- P501 Dispose of contents/container to an approved waste disposal plant.

2.3. Other hazards

The mixture does not contain substances PBT/vPvB according to Regulation (EC) No 1907/2006, Annex XIII

SECTION 3: Composition/information on ingredients

- 3.1 Substances
3.2 Mixtures

SAFETY DATA SHEET
Revised: GSH/MSDS/REACH

The full significance of the risk phrases are included in section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation:

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Keep warm. If experiencing respiratory symptoms: call a POISON CENTRE or doctor/physician.

Skin contact:

Remove/Take off immediately all contaminated clothing. Wash skin with plenty of soap and water. Contaminated clothing wash before reuse. If skin irritation or rash occurs get medical advice/attention.

Eye contact:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention.

Ingestion:

Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a POISON CENTER or doctor/physician if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

LA VIE EST BELLE

Date of issue:2020-02-20

Version: 1

Revision:

May cause mild irritation of eyes and skin. With allergic people may cause an allergic reaction even with small quantity of the product. Inhalation of concentrated vapours may cause feeling of tiredness, weakness, dizziness, nausea, headache, drowsiness and sore throat. Repeated contact with vapours may cause an allergic reaction of respiratory system (swelling, hoarseness, feeling of suffocation, cough). If swallowed may cause irritation of mucous film of alimentary tract and stomach, nausea, vomiting, diarrhoea and belly pains.

4.3. Indication of any immediate medical attention and special treatment needed

If symptoms persist call a POISON CENTER or doctor/physician. Apply treatment of the symptoms.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable Extinguishing Media:

Carbon dioxide, extinguishing powders, foam, water spray.

Unsuitable Extinguishing Media:

high volume water jet

5.2. Special hazards arising from the substance or mixture

Flammable liquid and vapour.

Hazardous Combustion Products:

In case of fire, the following can be released:

Carbon oxides (CO + CO₂).

Explosive mixture:

Vapors with air can form explosive mixtures .

5.3. Advice for firefighters

Special Protective Equipment:

Wear positive pressure self-contained breathing apparatus. Wear full protective clothing.

Additional Information:

In the event of fire, cool tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment (section 8).

Avoid contact with skin, eye and nose.

Do not breathe vapour or dust.

Do not let this chemical enter the environment.

6.2. Environmental precautions

Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained.

6.3. Methods and material for containment and cleaning up

Keep away from sources of ignition - No smoking.

Secure the damaged packaging .

Ventilate contaminated area thoroughly and avoid breathing vapors.

Small spills (<1 litre)

can be absorbed with use of absorbents (fabrics, sawdust, paper tissues or other absorbent materials).

Damaged containers place in spare packaging. Spoilt materials remove with caution as harmful waste.

Substantial spills

shall be removed by specialised staff. Prevent product from entering drains. Contain spillage and then collect with non-combustible, chemically inert absorbent material (sand, earth, diatomaceous earth, vermiculite) and place in tightly sealed containers for disposal by specialised services.

Wash contaminated area with lot of water.

6.4. Reference to other sections

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

LA VIE EST BELLE

Date of issue:2020-02-20

Version: 1

Revision:

7.1. Precautions for safe handling

Recommendations on safe handling of the mixture:

Avoid contact with eyes and skin.
Do not breathe vapours/spray.
Do not allow product to enter drains.

General protective and hygienic measures:

Ensure adequate ventilation of the working area .
Smoking, eating and drinking should be prohibited in the application area.
Wash hands before break and at the end of workday.
Take off contaminated clothing.
Wash contaminated clothing before reuse.

7.2. Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place.
Store in original, non transparent, property labelled containers .
Keep container tightly closed.
Store in a cool and dry place.
Keep away from open flames, hot surfaces and sources of ignition. Protect from direct sunlight.
Always use containers made from the same material as the original packing .
Containers which are opened must be carefully resealed and kept upright to prevent leakage.
Suitable packing materials: plastic and metal.
Storage temperature : ok. 15 ° C.
Storage duration : 12 months.
Do not use before reading and understanding all safety precautions .
Read all of this safety data sheet.

7.3. Specific end use(s)

No data available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Name of substance	CAS	NDS (mg/m3)	NDSch (mg/m3)	NDSP (mg/m3)
-------------------	-----	----------------	------------------	-----------------

8.2. Exposure controls

Appropriate engineering controls

Local exhaust ventilation system removing vapours from emission points and general ventilation of workplace.
Local ventilation sucking points at workplace level or below. Outlet of general ventilation at upper part of work room and at floor level. By insufficient ventilation use respiratory tract protection equipment. Shower and eye washing unit shall be available near workplace.

Individual protection measures, such as personal protective equipment

Eye / face protection

Not necessary under normal working conditions.
If there is a risk of eye splash, wear safety goggles in accordance EN 166.

Skin protection

Hand protection

Wear protective gloves according to the requirements of EN 374 .
Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation .
It is recommended to change gloves regularly and replace them immediately if they experience signs of wear or damage (tearing, puncture) or changes in appearance (color, elasticity, shape).
Use protective cream on exposed parts of the body.

Body protection

Wear protective clothing made of natural materials (cotton or synthetic fibers) and protective boots.
Type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

In normal working conditions no personal protective equipment is required.
Avoid direct inhalation of concentrated vapours.
Use adequate ventilation.

LA VIE EST BELLE

Date of issue:2020-02-20

Version: 1

Revision:

Environmental exposure controls

Avoid contamination of soil, waterways and drains.

Occupational hygiene

General regulations of industrial occupational hygiene apply.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance:	Liquid
Colour:	Yellow
Odour:	Conform to standards
pH:	No data available.
Melting point/freezing point :	No data available.
Initial boiling point and boiling range :	No data available.
Flash point :	>61°C
Flammability (solid, gas):	Not applicable.
Upper/lower flammability or explosive limits :	Not applicable.
Vapour pressure :	No data available.
Vapour density :	No data available.
Relative density :	0.982
Solubility(ies) :	
Partition coefficient: n-octanol/water	Not applicable.
Auto-ignition temperature :	No data available.
Decomposition temperature :	No data available.
Viscosity :	No data available.
Explosive properties :	Not applicable.
Oxidising properties :	Not applicable.

9.2. Other information

Refraction at temp. 20°C:	1.4740-1.4940
----------------------------------	---------------

SECTION 10: Stability and reactivity

10.1. Reactivity

Not reactive if used according to specifications.

10.2. Chemical stability

Stable in normal conditions of storage and use.

10.3. Possibility of hazardous reactions

Not known.

10.4. Conditions to avoid

High temperature (> 100 °C), ignition sources, open flame.

10.5. Incompatible materials

Strong oxidizing agents.

10.6. Hazardous decomposition products

Do not occur if used according to specifications.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity:

Available data on ingredients:

Name of substance	CAS	Dose, value, unit
-------------------	-----	-------------------

Based on available data the classification criteria are not met.

Skin corrosion/irritation:

LA VIE EST BELLE

Date of issue:2020-02-20

Version: 1

Revision:

H315 Causes skin irritation.

Serious eye damage/irritation:

H319 Causes serious eye irritation.

Respiratory or skin sensitisation:

H317 May cause an allergic skin reaction.

Germ cell mutagenicity:

Based on available data the classification criteria are not met.

Carcinogenicity:

Based on available data the classification criteria are not met.

Reproductive toxicity:

H361 Suspected of damaging fertility or the unborn child.

STOT-single exposure:

H361 Suspected of damaging fertility or the unborn child.

STOT-repeated exposure:

Based on available data the classification criteria are not met.

Aspiration hazard:

Data lacking.

SECTION 12: Ecological information

12.1. Toxicity

Acute toxicity:

Toxic to aquatic life with long lasting effects.

Available data on ingredients :

Substance	CAS	Dose; value; unit

- 12.2. Persistence and degradability**
No data available.
- 12.3. Bioaccumulative potential**
No data available.
- 12.4. Mobility in soil and water**
No data available.
- 12.5. Results of PBT and vPvB assessment**
Mixture does not meet PBT i vPvB criteria.
- 12.6. Other adverse effects**
Avoid contamination of soil, waterways and drains.

SECTION 13: Disposal considerations

- 13.1. Waste treatment methods**
Empty containers should be taken to an approved waste handling site for recycling or disposal.
The product should not be disposed with household garbage.
Mixture and packaging considered as dangerous.
Avoid contamination of soil, waterways and drains.
Empty remaining contents of contaminated containers. Multiple use containers may be reused after cleaning.
Disposable containers (after thorough cleaning) send to recycling company.
Special precautions:
Safe dispose of unused products and its packaging. Take care in handling of empty containers before they are thoroughly cleaned.
Waste code:
Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.
Packaging waste :
16 03 06 Organic waste other than referred to 16 03 05 and 16 03 80
