

# Lava Lip Gloss Instructions

## Products Needed:

MCT Oil

Castor

Glycerin

Lip safe mica

Pipette

Measuring Cups

Add Castor Oil and MCT to a measuring cup and stir well.

Fill 12 bottles to 0.27 oz. by weight. (For easier filling, use plastic beaker or pipette to fill)

Mix .6 oz of Glycerin with 2 micro scoops of Lip Approved Mica Powder.

Fill a dropper with colored glycerin, and drop into the oil filled roller bottles. If using 2 or 3 colors in each bottle they will merge after a bit.

You can also add flavor, but some flavor oil will break down the Glycerin color balls.

Press reducer into bottle, then press plastic ball into reducer.

Twist caps on bottles.

Label product accordingly.

NOTE: If you are making these products for sale, good manufacturing practices recommend you wear a hairnet, gloves, and a mask. We also recommend a clean apron and workspace.
