

Scented Salts for Wax Warmers Instructions

(Makes 1 Dozen 1.5 oz Ribbed Jars)

Materials Needed

- 16 oz Dead Sea Salt (Coarse)
- 2 oz Fragrance of Choice
- 1 Dozen 1.5 oz Ribbed Glass Jars with Lids
- Liquid Candle Dye or Mica Powder for Colorant (Optional)
- Scale
- Mixing Bowl
- Mixing Tool (Spoon, Spatula, etc.)
- Measuring

Instructions

1. Weigh out 16 oz of coarse dead sea salt and add to a mixing bowl.
2. Weigh out 0.40 oz of fragrance oil and add to the sea salt in the mixing bowl.
3. Using the mixing tool, mix the salt and fragrance together until fully combined.
4. If color is desired, add colorant of choice to salt mixture (1-2 drops of liquid candle dye, or a teaspoon of mica powder) and mix again until fully combined.
5. Put one ribbed jar on the scale and zero the scale out.
6. Using a measuring spoon, add salt mixture into the jar.
7. Repeat process until all jars are filled.
8. Add lid to jars and label accordingly.
